Quality assured:

Why Language Daddy?

- ✓ All of our translators are professionally qualified and have at least 3 years minimum experiences.
- ✓ Our translators only translate into their native languages.
- ✓ Our translation teams are generally resident in the country for which the translation is intended, especially if a detailed knowledge of that particular country is essential for an accurate translation.
- ✓ The teams will have specific knowledge of the vocabulary of your business sector.
- ✓ Our standard prices for translation always include proofreading by a separate person, who is also a native speaker. This is essential if the document is for public consumption and not just for internal use.

Process & Work Flow:

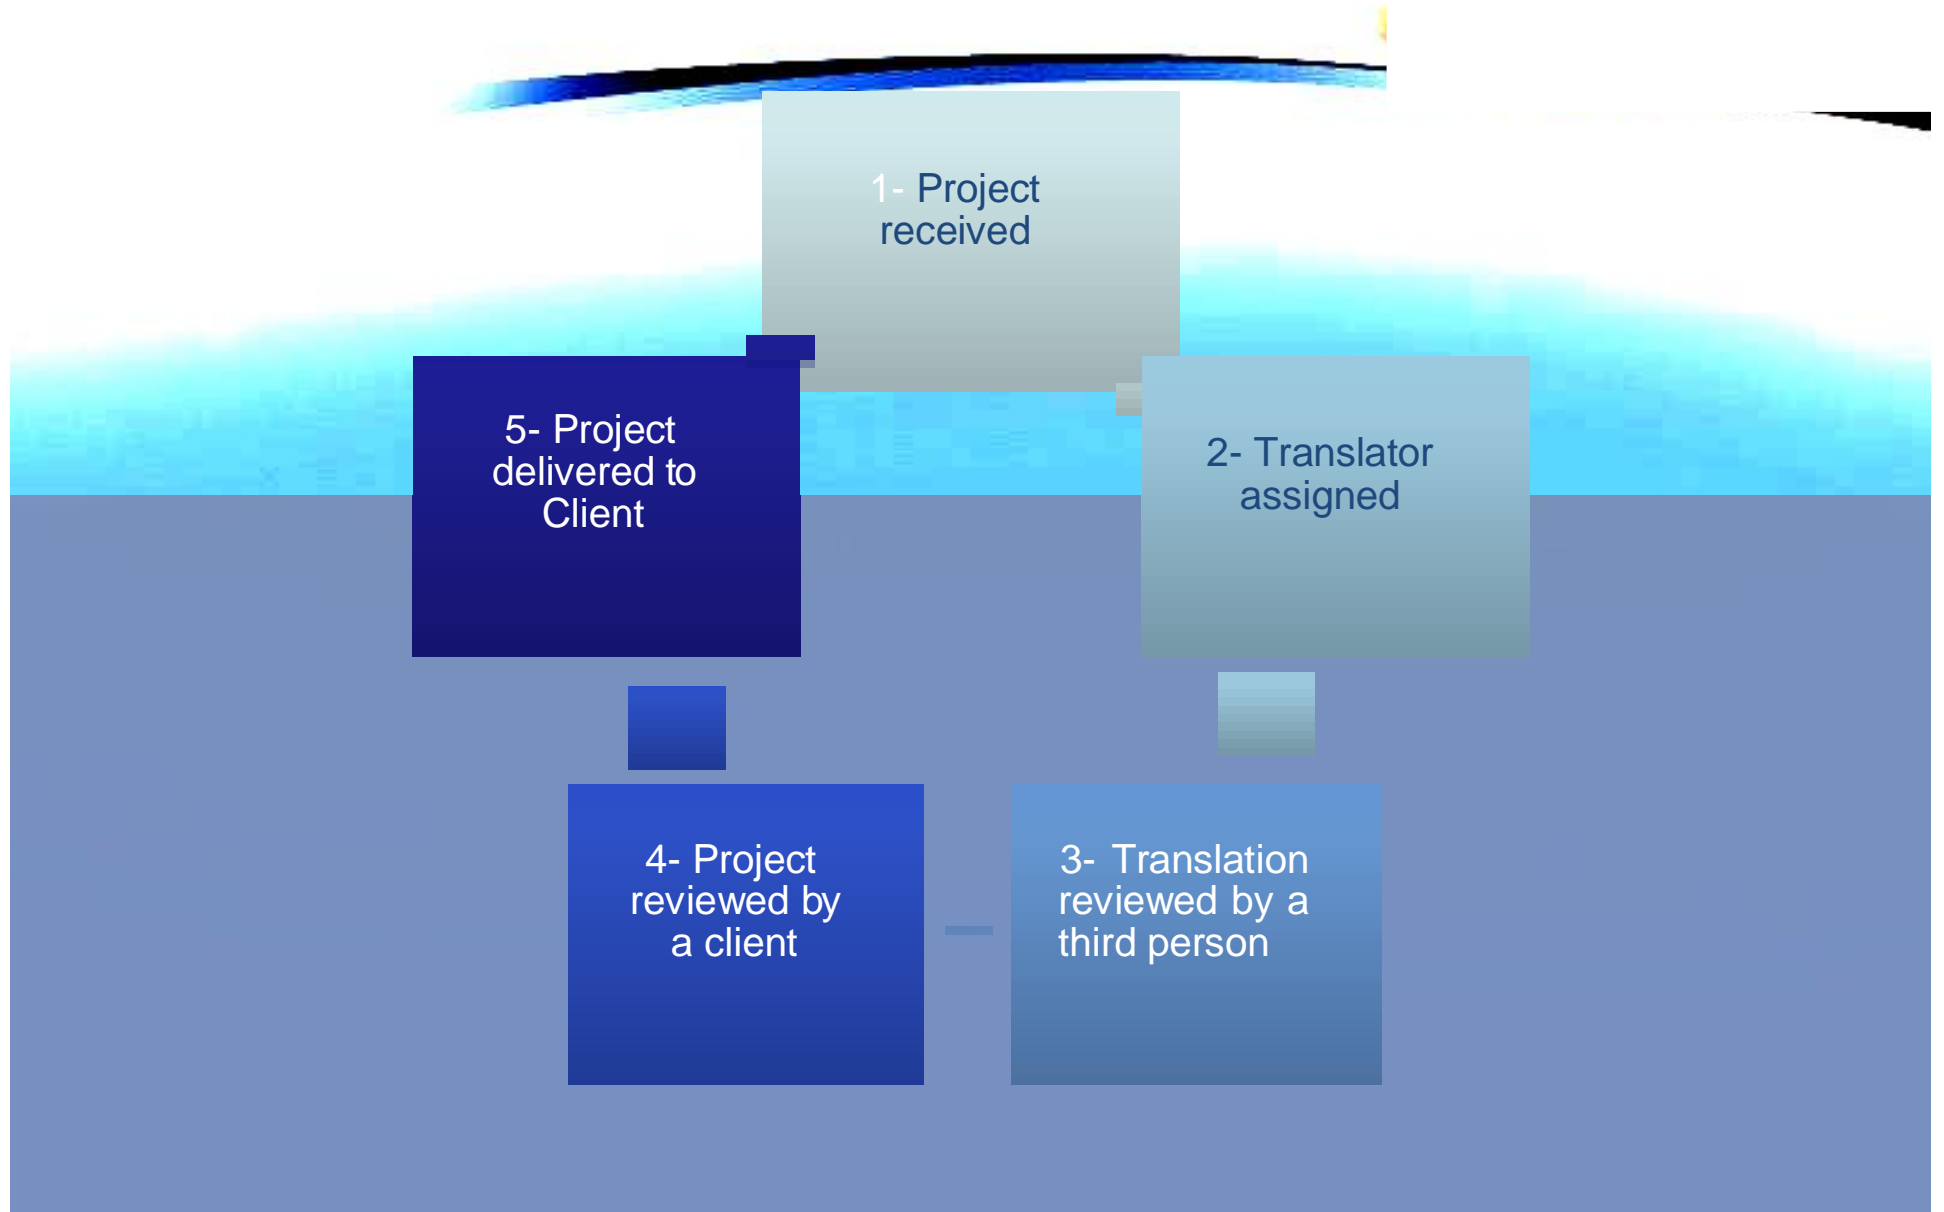

1- Project received

2- Translator assigned

3- Translation reviewed by a third person

A person wearing a white lab coat is shown from the chest up, with their hands clasped together in front of them. Overlaid on the image is a semi-transparent digital interface consisting of a grid of hexagons. Each hexagon contains a white icon representing a different medical or scientific concept. The icons include a thermometer, a microscope, a DNA double helix, a pill, a first aid kit, a graph, a flask, a test tube rack, an eye, and a stethoscope. The text "Thank you!" is centered over the grid in a bold, black, sans-serif font. The background is a soft-focus image of the person's lab coat and hands.

Thank you!
